Dear Educator:

The above named child is applying to participate in the New York International Children's Film Festival's Film Production Workshop. During the February and April 2012 public school breaks, children ages 6-16 will learn to make 2D animation, pixilation, and claymation films at the The Battery Park City School in Lower Manhattan. Children will work as a group to conceive of, develop and construct characters, and learn how to make their characters move and speak.

Would you recommend the above named child for this program? Why or why not? How is the student's overall performance in school? To what extent does this student display ambition, creativity, and attentiveness? Please answer below or on a separate sheet of paper.

Please mail, fax or email the finished recommendation form to:
